EXPERIENCE

Final Project: ESP32-CAM-Based Home Security System Using RCWL-0516 and PIR HC-SR501 Sensors

IPB, Bogor Tengah - Bogor
01/2025 - 08/2025

Designed and developed an ESP32-CAM-based home security system integrated with RCWL and PIR sensors. Ensured the system reliably detected motion, sent real-time notifications via Telegram upon detection, and captured as well as transmitted images automatically when the PIR sensor was triggered.

IoT Project - HY-Scape: Smart Aquascapes with Temperature Control, pH Regulation, and Automatic Feeding

Aquadit, Baranangsiang - Bogor
01/2024 - 06/2024

Designed and developed software and a web-based application for a smart aquascape system. Ensured reliable operation of both the hardware and web platform to monitor and control water temperature, pH levels, and automated fish feeding.

Development of the Curug Cikoneng Market Website and an ESP32-CAM-Based Ticket Scanning System

Curug Cikoneng, Puraseda - Bogor
07/2023 - 11/2023

Designed and developed a web-based ticket management application integrated with an ESP32-CAM ticket scanning system. Ensured reliable communication between the scanning device and the web application, implemented online ticket purchasing functionality, and developed a dashboard for owners to monitor ticket sales and transaction data.

CERTIFICATES

Hardware Installation Supervisor
BNSP IPB Vocational Professional Certification
10/2025 - 10/2028

Sertifikat Studi Independen Bersertifikat Kampus
Merdeka x Ruangguru Batch 6
Ruang Guru & Kementrian Pendidikan
2024

CCNA: Switching, Routing, and Wireless Essential Cisco
Networking Academy
2023

CCNA: Enterprise Networking, Security, and Automation
Cisco Networking Academy
2023

SUMMARY

A motivated Computer Engineering student at IPB University's School of Vocational Sciences, a fresh graduate with a GPA of 3.44. Possesses experience in IoT, website and networking. Seeking an IT internship opportunity to further enhance practical skills, contribute to real-world projects, and expand knowledge in the field of computer engineering.
